

Nonprofit Temporary Food Event Organizer Application

**ORGANIZER'S APPLICATION MUST BE RECEIVED 30 DAYS BEFORE THE EVENT
ALONG WITH A LIST OF ALL FOOD VENDORS WHO WILL BE ALLOWED
BY THE ORGANIZER TO PARTICIPATE IN THE EVENT**

A copy of I.R.S. Form 501C, or a letter determining tax-exempt status from the Georgia Commissioner of Revenue, must be provided to the County Health Authority as proof of nonprofit status.

Organizer's Name: _____ Organizer's Phone: _____

Organizer's Address: _____
Please include suite # Street Name and # Suite City State Zip Code

Organizer's E-mail Address: _____

Event Name: _____

Event Address: _____
Please include suite # Street Name and # Suite City Zip Code

Set Up Date: _____ Set Up Time: _____

Event Begin Date: _____ Event Begin Time: _____

Event End Date: _____ Event End Time: _____

Number of food service vendors expected: _____

If event is longer than one (1) day, please provide your operating schedule

It will be the organizer's and / or property owner's responsibility to ensure that only vendors permitted by this department shall participate in the event.

Any unauthorized or unpermitted vendor found participating in an event shall be charged with a violation of this rule, and ordered by the organizer or property owner to leave the event premises.

Onsite Coordinator's Name

Date

Onsite Coordinator's Signature

Onsite Coordinator's Phone #

Return the completed application to the Center for Environmental Health:

Cobb County:
1738 County Services Parkway SW, 2nd Floor, Marietta, GA 30008-4012
Office: (770) 435-7815 | Fax: (770) 431-7410

Douglas County:
8700 Hospital Drive, 1st Floor, Douglasville, GA 30134-2264
Office: (770) 920-7311 | Fax: (770) 920-7317

WATER SUPPLY

1. What will be the source of approved potable water? (Check all that apply)

- Vendor is completely responsible for their own water supplies
- Bulk commercial supply (bottled)
- Onsite water faucet
- Onsite direct water connection (trailer inlet)
- Public water system
- Well

2. Source of bottled water (both individual bottle and bulk supply)? _____

TOILET FACILITIES

1. What will be used for toilet facilities for the food booth(s)?

- Central supplied facilities
- Portable toilets

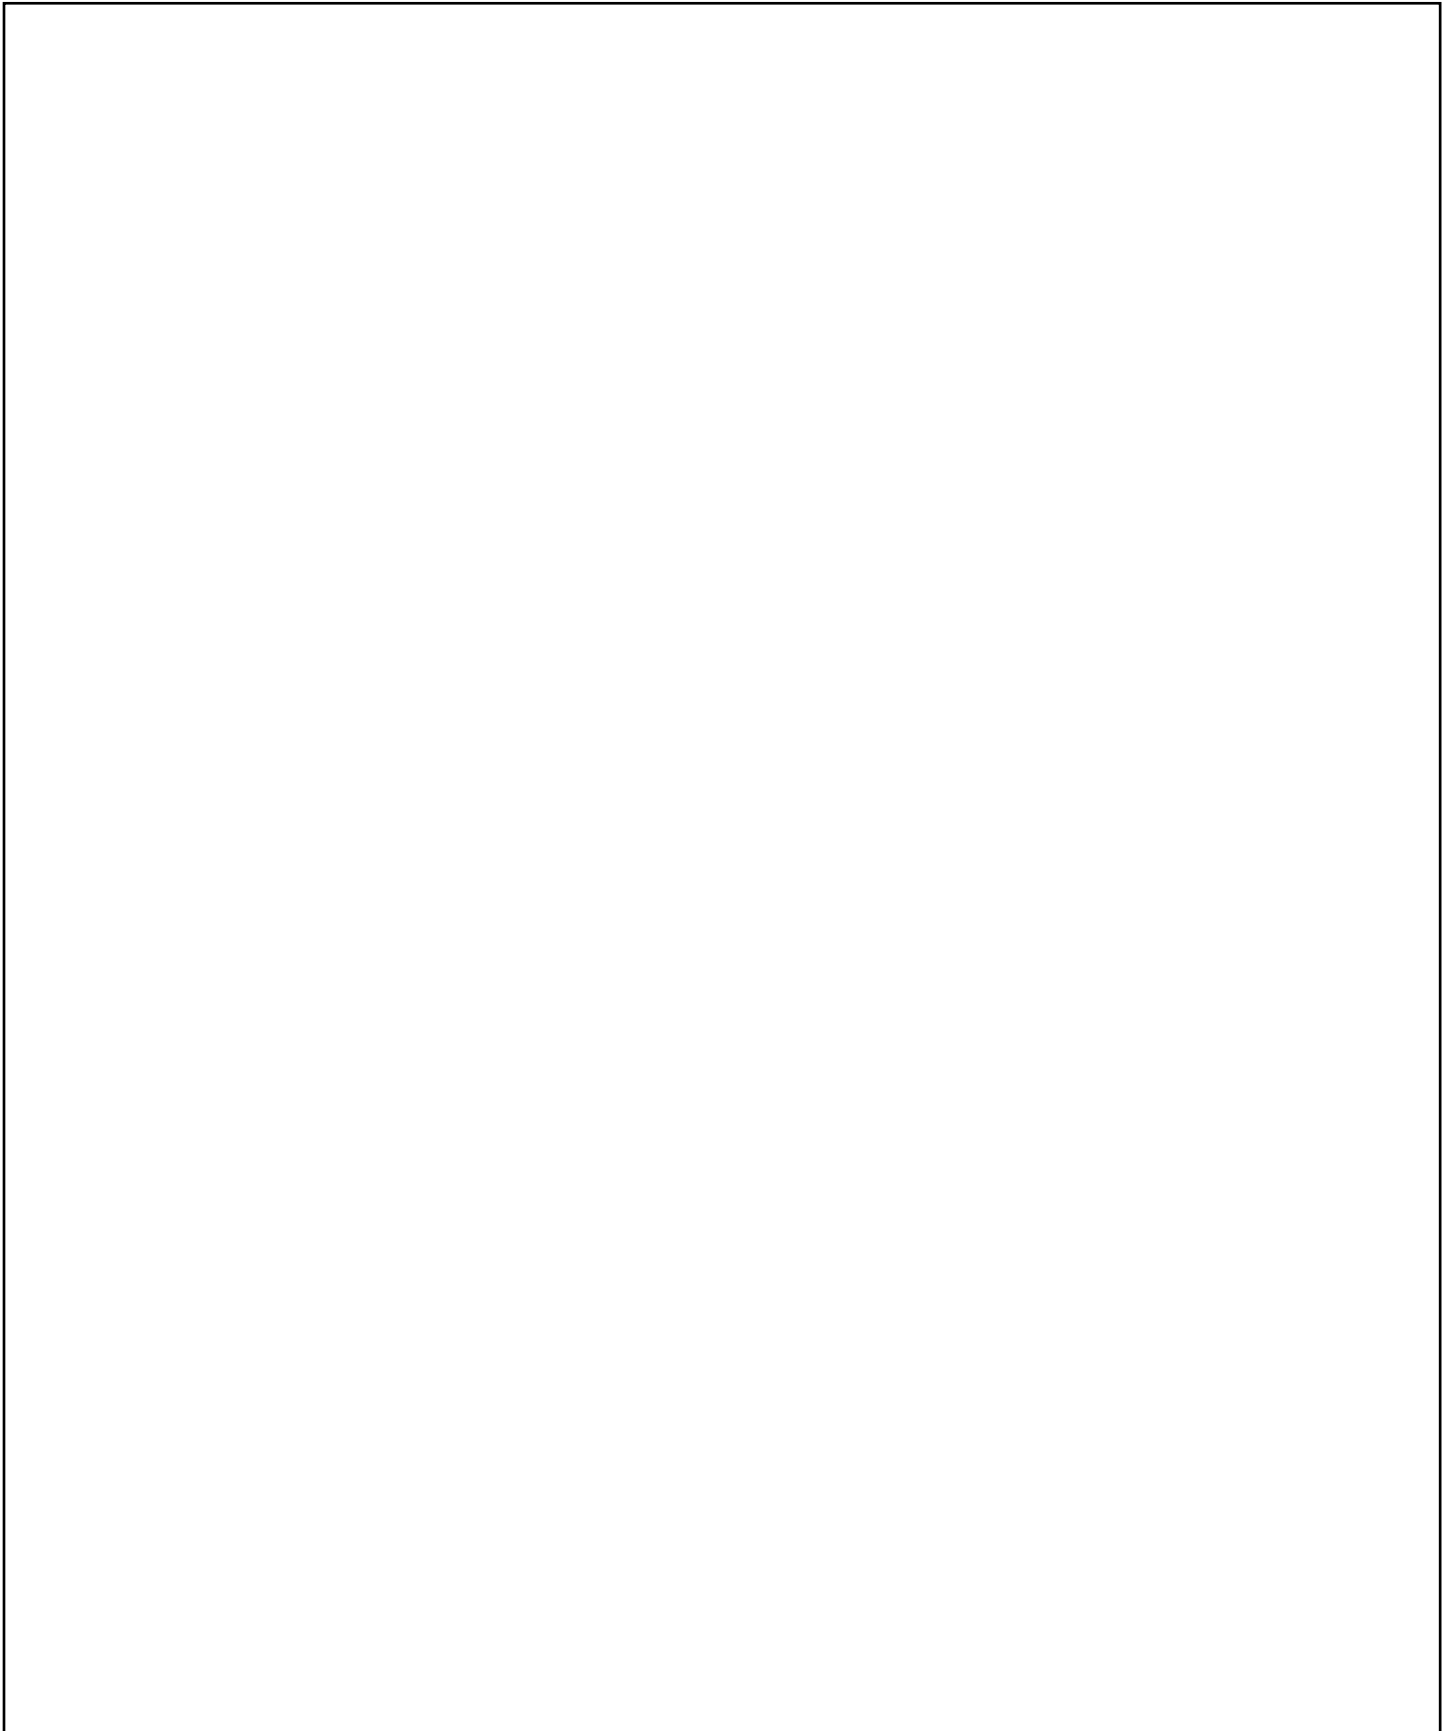

WASTE DISPOSAL (Solid and Liquid)

1. What type container will be used for solid waste disposal in the food facility? _____

2. How will you dispose of liquid waste? _____

A copy of I.R.S. Form 501C, or a letter determining tax-exempt status from the Georgia Commissioner of Revenue, must be provided to the County Health Authority as proof of nonprofit status.

GENERAL SITE PLAN: In the space below, or on a separate page, please provide a generalized site plan depicting the locations of the food vendors, toilet facilities, general public handwashing facilities (if provided), solid and liquid waste containers, animal enclosures, walkways, roads through the event, etc. and approximate distances. Please indicate if the pathways / roadways through and around the event are paved or unpaved.

A large, empty rectangular box with a thin black border, intended for the user to draw a generalized site plan. The box is currently blank.

Planning

Proper portable sanitation planning is essential to the coordination of a safe and successful special event. Considerations during the planning process should include:

Type of event – Events that last throughout the day and into the evening will require more units than events that last for only a couple of hours. Also, if food will be served at an event, hand-washing stations should be considered in order to reduce the risk of disease transmission through hand to mouth contact. Portable sanitation units should be located as far away from food service vendors as practical.

Number of attendees and duration of the event – An event for a large mass gathering of people will require more portable units than a small group of people. *See the included table for estimating the number of portable units required for an event or construction site.

Food and beverage type and location – If alcoholic beverages are being served, the number of portable toilets should be increased by 25%.

Outside temperature – On hot days, visitors will consume more drinks and make more trips to the lavatories. More units should be considered for such cases.

Event layout and topography – Portable toilets should be placed on flat surfaces in a strategic position that allows easy access by the public and large trucks that service the units.

Current listings for certified portable sanitation contractors and companies can be found at www.dph.georgia.gov

Background

Large gatherings of people in relatively small areas for extended periods of time may elevate the risk of disease outbreak. In many of these situations, there are not enough restroom facilities at the site to accommodate a mass gathering. Proper measures must be employed to ensure enough sanitary facilities are present to meet the needs of the public, and to ensure the safe and timely disposal of sanitary wastes. Portable sanitation units can provide for this need. If portable sanitation units become overcrowded and neglected, especially at events involving food consumption, the risk of a disease outbreak is only increased. It is, therefore, imperative to take the time to develop a plan for the safe and effective placement, storage and disposal of sanitary wastes at special events in such a way as to reduce the risk of disease outbreak and protect public health.

For additional information, please contact your local county health department, or visit our web page: www.dph.georgia.gov

Portable Sanitation

*Information for Event Organizers
and Construction Site Owners*

DPH Rules and Regulations

The Georgia Department of Public Health regulates temporary portable sanitation units and persons engaged in the business of furnishing, renting, or servicing these units, including portable hand washing facilities, under Rules of the Department of Public Health Chapter 511-3-6.

All portable sanitation units must be furnished and maintained by a certified contractor or company. It is the responsibility of the event organizer or the construction site owner to ensure a sufficient number of portable sanitation units are available on-site to prevent a prohibited discharge of sewage or cause a public health nuisance. Event organizers and property owners are also responsible for ensuring all portable sanitation units are serviced at least once every seven days, or more frequently if usage requires.

Portable Sanitation Units for Special Events Planning

** If alcoholic beverages are to be served, add 25% to the base number.*

Minimum Number of Portable Sanitation Units at Construction Sites

NUMBER OF WORKERS	MINIMUM NUMBER OF UNITS SERVICED WEEKLY
20 or less	1 toilet per 20 workers
21 or more	1 additional toilet per 40 workers
200 or more	1 additional toilet per 50 workers

**The number of portable sanitation units required shall be determined by the maximum number of workers present on a regular 8 hour shift. Shifts lasting longer than 8 hours (40 hour work week) should double the number of portable sanitation units.*
