

# Ending the HIV Epidemic

## Community Advisory Board Meeting

1/10/2020

On January 8, 2020 we held our second Community Advisory Board meeting at the Marietta Public Health Center. We were happy to have representation from Someone Cares, Positive Impact, Ser Familia and the Georgia Department of Public Health.

### Key Takeways

- It is essential to strategically reach the most impacted populations in Cobb County.
- We need to engage and have a growing representation from physicians and healthcare providers.
- An emphasis should be placed on reaching the youth and college students.
- Mental Health, Housing, and Transportation were identified as most needed services for people living with HIV/AIDS.

POSITIVE IMPACT  
HEALTH CENTERS
