

SOCIAL DISTANCE GUIDE FOR YOUTH

Help prevent the spread of Coronavirus (COVID-19)

STAY HOME

Healthy people can spread the virus without being sick.

STAY CONNECTED THROUGH TECHNOLOGY

Platforms like Skype and FaceTime can help you communicate with others while practicing social distance.

AVOID PUBLIC SETTINGS AND RESCHEDULE GROUP GATHERINGS

Limit shopping trips, social visits, play dates, and non-essential travel like vacations.

KEEP YOUR DISTANCE

It is recommended to maintain a distance of 6 feet between yourself and others.

JUST ONE PERSON CAN MAKE A DIFFERENCE

Social distancing works by reducing the number of people available to spread infection. If we all play our part, we can help maintain the health of the world!
